

Bharat Shah

Technical Lead and Architect/Engineer

Location: Abu Dhabi, UAE (resident) | +971 565 973 854

bharatrose1@gmail.com | [LinkedIn](#) | [GitHub](#)

Notice Period: 2 months (actively working to reduce)

Summary

Multi-Specialty Engineering Leader | 12+ years of experience spanning across Frontend, Cloud, Solution Architect/ Engineer, Technical Leadership. Proven expertise in applying core architectural principles—operational excellence, security, reliability, performance, and cost optimization—to design and deliver resilient, high-impact cloud solutions. Adept at translating complex business requirements into clean, scalable, and maintainable systems that drive innovation and long-term value early-stage startups and enterprise environments.

Core competence

Frontend: Built modern, responsive, and performant UIs using React.js, Next.js, TypeScript, HTML5, CSS3, SCSS, Webpack, Micro-Frontends, Figma, MUI, Tailwinds across fintech, ad-tech, and e-commerce platforms. Experienced in integrating design systems, optimizing UX, and collaborating closely with product/design teams.

Frontend: *Designed and developed scalable, maintainable Frontend systems using Node.js, NestJS, ExpressJS, TypeScript, Go (Golang since 2023), PHP, and Laravel. Skilled in building robust APIs, microservices architectures, and event-driven systems utilizing PostgreSQL, MySQL, MongoDB, Redis, Kubernetes, Kafka, and RabbitMQ. Hands-on experience with modern AI/ML tools, including LangChain, LangGraph, vector databases, Pinecone, and ChatGPT.*

Architecture & Cloud: AWS (EC2, S3, Lambda, RDS, ECS, CloudFront, VPC, IAM, Route 53), Docker, Networking (Subnets, IGW), Linux/Windows Systems.

Engineering Leadership & Organizational Impact: Recognized for mentoring engineers and cultivating high-performing, growth-driven teams. Skilled in scaling teams, leading agile rituals, and aligning technical strategy with business goals. Collaborated closely with stakeholders across product, marketing, and sales to ensure successful deliveries. Experienced in working with regulatory bodies (e.g., ADGM, FSRA) to maintain architecture compliance. Committed to continuous learning, fostering innovation, and identifying opportunities for process improvement.

Experiences

Principal Software Engineer – Frontend

Avrioc Technologies, Abu Dhabi (06/2024 – now)

I architect scalable, high-performance solutions using TypeScript, React.js, Nest.js and AWS; lead and mentor development teams to foster best practices and technical excellence; design and optimize AWS services (Lambda, EC2, RDS, S3, ECS, Route 53, SQS, CloudFront, Load Balancers, Global Accelerator) for performance and cost efficiency; collaborate closely with stakeholders to translate business needs into effective technical solutions while coordinating with DevOps for seamless deployments; and ensure application performance, security and compliance through regular audits and proactive optimization.

Senior Software Engineer – Frontend

Fiverr, Sharjah (05/2023 – 05/2024)

Architected a Frontend solution to automate end-to-end tailoring operations, including orders, customization, payments, and customer integration; built a scalable, microservice-based Frontend with TypeScript, Node.js, PostgreSQL, RabbitMQ, and AWS; developed performant Frontend applications using React.js, Micro Frontends, SCSS, MUI, and Storybook; and practiced TDD with Jest and Cypress while automating CI/CD pipelines with GitHub Actions.

Lead Software Engineer – Frontend

GetBee LLC, Dubai (01/2022 – 02/2023)

Led architecture and development of scalable Frontend features, including visualization tools and Frontend integrations; built reusable components and drove design system adoption to improve team velocity; and defined KPIs and engineering metrics to ensure continuous improvement and execution clarity.

Lead Software Engineer – Frontend

Wealthface LLC, Dubai (04/2019 – 12/2021)

Led end-to-end architecture and development of scalable investment platform features using PHP, Node.js, and React.js; collaborated closely with leadership and product teams to align technical execution with evolving business goals; and oversaw AWS cloud infrastructure and optimization efforts to ensure system reliability and high performance under growth.

Software Engineer

Toptal, Abu Dhabi (12/2017 – 01/2019)

Developed Frontend applications using Node.js, React.js, Redux, and MongoDB on cloud infrastructure; designed and implemented RESTful APIs and web services; and supported DevOps practices through environment management with NVM, NPM, and MERN stack configurations.

Senior Frontend Developer

Crossover Pvt. Ltd, Kathmandu (07/2013 – 06/2016)

Consulted with customers on project status, proposals, and technical issues while transforming existing software to fix errors, upgrade interfaces, and improve efficiency, collaborating closely with IT team members to plan, design, and develop effective solutions.

Frontend Engineer

Uniweb Technologies, Kathmandu (02/2011 – 03/2013)

Led and mentored a team of Frontend developers while designing and developing scalable, reliable Frontend systems and APIs, collaborating with cross-functional teams, and architecting optimized databases for efficient data storage and retrieval.

Technical Sales Engineer

Thakur International, Kathmandu (04/2009 – 12/2010)

Managed pre-sales and post-sales technical solutions, supporting customer requirements and coordinating with sales teams.

Technical Sales Engineer

Ncell Pvt. Ltd, Kathmandu (03/2006 – 01/2009)

Provided technical support and training to sales engineers, enhancing customer engagement and product adoption.

<u>Educations</u> Bachelor i Business Studies <i>Tribhuvan University, Kathmandu (2008–2014)</i> Vocational studies in Computer Science and Software Engineering Certifications.	<u>Languages</u> English (Fluent) Norwegian (Fluent) Nepali (Fluent)
<u>Certifications</u> AWS Certified Solution Architect	<u>Others</u> References: Available upon request Driving Licenses: UAE
